Bio

I have spent the last four years working for a small business. I am our one-man web development team, marketing team, social media team and artwork department. My goal is to land a new gig where I can focus on user experience, mobile and responsive design, and advance my web developer skills. I would like to become a complete expert in at least one field.

Experience

2011 - Current - Web Developer, Ecommerce Manager - Fanatic U - Garden City, MI

Responsibilities include:

- Web design & development
- Digital marketing including email, social, digital display & adwords
- Ecommerce Management

2011 - Current - Freelance Web Designer/Developer
